**TECHNOLOGY ENTHUSIAST**

**LEADER & MOTIVATOR**

**PROBLEM SOLVER**

## SUMMARY OF EXPERIENCE & SKILLS

### Strong management skills

- Successful execution of large scale software projects
- Excellent communicator with a 'can do' attitude
- Establishing and managing offshore test teams in eastern Europe
- Managing the complete product life-cycle from conception to general availability
- Experience in various product development methodologies (certified "SCRUM Master")

### Strong technological background

- Vast experience in designing, testing and releasing software products for the PHP Web Application stack
- Experience with open source projects, tools and development communities
- Proven technological research skills and implementation of configuration management tools & process into the development process

## EMPLOYMENT HISTORY

2008-2009      **Zend Technologies**, Tel Aviv, Israel

### **Windows Integration Team Leader & Release Manager**

Responsible for the integration and release of Zend Server, an enterprise level PHP application server for Windows

Achievements included:

- The successful and on time release of Zend Server version 4.0
- Increasing product value by maintaining a stream of monthly updates (4.0.1, 4.0.2...)

2007-2008      **Zend Technologies**, Tel Aviv, Israel

### **Zend Core Group-Leader & Release Manager**

Directly managing a group of 10 developers and test engineers and responsible for developing and releasing of Zend Core, Zend certified PHP distribution

Achievements included:

- Developing a group of expert Software & Quality Assurance Engineers whilst implementing rapid development and test cycles (using the SCRUM development process) - [http://www.scrumalliance.org/pages/what\\_is\\_scrum](http://www.scrumalliance.org/pages/what_is_scrum)
- I was responsible for maintaining the quarterly release process of product updates that helped to increase product value

2004-2007      **Zend Technologies**, Tel Aviv, Israel  
**Director of Quality Assurance**

I was responsible for the company's Quality Assurance activities, reaching the position of Director of Quality Assurance and directly managing 15 Quality Assurance and Integration Engineers

Achievements included:

- Establishing an automated functionality & performance test lab to ensure high quality and on time delivery and also significantly reducing time to market
- Establishing an offshore test team (6 QA Engineers) in Sofia, Bulgaria. The team is fully integrated into the Zend R&D department and keeps a very high return on investment value
- Building and managing an experienced Quality Assurance group (15 QA Engineers) with clear hierarchy, work processes and high motivation

2000-2004      **Zend Technologies**, Tel Aviv, Israel

### **Quality Assurance Manager**

Directly managing a group of 6 test engineers and leading the test efforts for the entire product line.

Achievements included:

- Introducing “time saving” technologies, tools and processes
- Creating and managing a company level release dashboard to streamline the entire product release process and sync the various departments (sales, marketing, R&D, management) in the company
- Design of a Web User Interface written in PHP to control the company build & packaging systems

## **EDUCATION**

- 2001      Netanya Academic College, Israel - B.A. Computer Science

## **CERTIFICATIONS**

- Certified ITIL Engineer - <http://www.itil.org.uk/>
- Certified “SCRUM Master” - [http://www.scrumalliance.org/pages/what\\_is\\_scrum](http://www.scrumalliance.org/pages/what_is_scrum)
- TOC Project Management - [http://en.wikipedia.org/wiki/Critical\\_Chain\\_Project\\_Management](http://en.wikipedia.org/wiki/Critical_Chain_Project_Management)
